Physical Sciences Online Resources

1. Tyler Dewitt (<https://www.youtube.com/user/tdewitt451>)

This guy knows his chemistry. He explains some concepts like Limiting Reagent exceptionally well and his series on RedOx is essential watching. I've learnt most of my chemistry basics from him

2. <https://www.youtube.com/user/chemistNATE>

3. <https://socratic.org>

I've used this site to ask questions on Chemistry and Maths and have received some excellent answers. It's a great tool to use if you're having problems understanding certain concepts.

4. CrashCourse Physics & CrashCourse Chemistry on YouTube. Don't watch this series to learn exactly what's in the syllabus, but rather to watch it to learn to appreciate the subjects. The hosts of the show are funny and engaging, and it will help increase your enjoyment of the subjects – which is key to excelling in them

5. Micheal Van Biezen (<https://www.youtube.com/user/ilectureonline>) : A US University lecturer uploads Physics and Chemistry videos with a shocking regularity. He does many examples of sections students struggle with – Newton's laws etc.

6. Bozeman Science: <https://www.youtube.com/channel/UCEik-U3T6u6JA0XiHLbNbOw>
