NASIENRIGLYNE

Tyd: 3 uur

150 punte

Hierdie nasienriglyne is opgestel vir gebruik deur eksaminators en hulpeksaminators van wie verwag word om almal 'n standaardiseringsvergadering by te woon om te verseker dat die riglyne konsekwent vertolk en toegepas word by die nasien van kandidate se skrifte.

Die IEB sal geen bespreking of korrespondensie oor enige nasienriglyne voer nie. Ons erken dat daar verskillende standpunte oor sommige aangeleenthede van beklemtoning of detail in die riglyne kan wees. Ons erken ook dat daar sonder die voordeel van die bywoning van 'n standaardiseringsvergadering verskillende vertolkings van die toepassing van die nasienriglyne kan wees.

VRAAG 12

In 1 uur: X en Y vul $\frac{1}{12}$ van die tenk

X en Z vul $\frac{1}{15}$ van die tenk

Y en Z vul $\frac{1}{20}$ van die tenk

Optelvergelyking: $X + Y + X + Z + Y + Z = \frac{1}{12} + \frac{1}{15} + \frac{1}{20}$

$$2(X + Y + Z) = \frac{1}{5}$$

X, Y en Z saam vul $\frac{1}{10}$ van die tenk.

Bygevolg, Y alleen vul $\frac{1}{10} - \frac{1}{15} = \frac{1}{30}$ van die tenk in 1 uur

Dus, 30 uur om die tenk vol te maak.
