- 5.4 True
- 5.5 False
- 5.6 False
- 5.7 True
- 5.8 False
- 5.9 True
- 5.10 False

(10 × 1) [10]

TOTAL SECTION A: 60**INSTRUCTIONS TO MARKERS MARKING MANIPULATION AND ACCURACY:****SECTION B: PRACTICAL****WORD PROCESSING, SPREADSHEET AND PRESENTATION**

The above-mentioned questions must be marked with a BLUE and RED pen.
BLUE is for manipulation/display and RED is for accuracy.

NOTES FOR MANIPULATION:

- Write every number as indicated on the marking guideline. Don't only indicate the incorrect number, all numbers must be written on all the candidates' PRINTOUTS.
- Write the numbers in more or less the same position as indicated in the marking guideline (this assists the internal moderator and chief marker when moderating).
- If the number for manipulation is incorrect, write the number with a cross next to it e.g. 5X or X5
- If the number for manipulation is correct but a cross was already made next to the number, just encircle the number instead of using 'Tippex' or scratching it out e.g.

5X

- If the candidate handed in any other blank pages or pages not relevant for marking, do not draw a line across the page, only write 'NOTED' on the page.

NOTES FOR ACCURACY:

- Every accuracy error must be indicated with a RED pen. One mark per accuracy error is penalised. If the same word is repeated and spelled incorrect, only penalise once, encircle the repeated word if incorrect. Please do not double penalise for the same word.
- If two words are keyed in correctly but a letter space was omitted e.g. 'theman' instead of 'the man' don't penalise accuracy, penalise manipulation for letter spaces.
- If a word is keyed in incorrectly in UPPER CASE or lower case, it is not an accuracy error. Manipulation is penalised for upper and lower case.
- Every word that is spelled incorrectly, whether in the same sentence or not, or in a case where the word was cut off, is marked as accuracy.
- Every word or sentence omitted/left out is penalised for accuracy, e.g. if the following sentence was left out: 'The cat climbed up the tree.' penalise 1 accuracy error for every word left out, even if the candidate forfeits all the accuracy marks. The candidate cannot be awarded accuracy marks if too much text was omitted.

QUESTION 6: WORD PROCESSING

MARKS: 50

	ACCURACY ERRORS	10
	Header [QUESTION 6]	
	Heading [The ... sharks]	
	Footer [Protect our marine life!]	
	All text on page 3, text at top of page, text in shape, text in table, text below table	
	MANIPULATION	40
Manipulation of first page:		
1	[EXAMINATION NUMBER] not left-aligned and [QUESTION 6] not right-aligned as HEADER and upper case and/or incorrect	
2	All margins not 1.27 cm/0.5" and/or incorrect	
3	Whole document not justified and/or incorrect	
4	Three open lines not inserted top of document and/or incorrect	
5	Heading not inserted top of document and WordArt not used for heading and/or incorrect	
6	Heading font not in Berlin Sans FB 28 pt and centred and/or incorrect	
7	Great White not found and replaced 9 times and/or incorrect	
8	Great White not replaced 9 times in Berlin Sans FB 14 pt, bold and italics and/or incorrect	
9	Encircled text not changed to italics and/or incorrect Note: Text encircled 4 times Carcharodon carcharias x 2 [Information obtained by marinebio.org] [Information obtained by worldwildlife.org]	
10	Text not deleted in paragraph 1 and/or incorrect	
11	Line numbering not inserted at correct paragraphs/open lines numbered and/or incorrect	
12	Line numbering not starting with 5 and spacing from text not changed to 0.2 cm/0.1" and/or incorrect <i>Note: if the candidate didn't adjust the spacing, the line numbers will be cut off; penalise only this number if line numbering is cut off at the edge of the page.</i>	
13	Third paragraph not indented both sides by 3 cm/1.18" and changed to 1.5 line spacing and/or incorrect	
14	Fourth paragraph not centred and indented both sides by 5 cm/1.96" and/or incorrect	
15	Page breaks not inserted at correct positions and/or incorrect	
16	Single horizontal line not inserted in footer and/or incorrect	
17	Text not inserted in 8 pt and right-aligned in footer and/or incorrect	
18	Reflection effect not applied to text in footer and/or incorrect <i>Note: If the footer information doesn't appear on all the pages it means that the candidate didn't insert a footer, numbers 24 to 27 must be penalised but don't penalise for accuracy if the information is keyed in.</i>	

Manipulation of second page:	
19	Text not changed to 3 equal columns and text not in correct columns and/or incorrect
20	THREE column headings not changed to upper case, bold, underline and only text shaded grey and/or incorrect
21	Columns not cancelled at correct position and/or incorrect
22	Paragraph not cut and pasted in correct position and/or incorrect
23	Correct image not inserted after paragraph and/or incorrect
24	Size of image not changed to 7 cm/2.75" height × 9 cm/3.54" width and/or incorrect
25	Double frame, black picture style not applied to the image and centred and/or incorrect
26	Page not changed to landscape and other pages portrait and/or incorrect
Manipulation of third page:	
27	Heading [Why ... sharks?] not changed to bold and underline and/or incorrect
28	Paragraphs not numbered and indented and/or incorrect
29	Correct shape not inserted and shape size not changed to 10 cm/3.93" height × 9 cm/3.54" width and/or incorrect
30	Shape not right-aligned on page and outline not changed to 3 pt and/or incorrect
31	Correct text not copied and pasted inside shape and/or incorrect
32	Font in table and in shape not Berlin Sans FB 10 pt and/or incorrect
33	Heading [Did you know?] not changed to bold, underline and centre and/or incorrect
34	Table not inserted after shape and/or incorrect
35	Size of table, row height and column widths not changed and/or incorrect Row height – 0.5 cm/0.2" First column 7 cm/2.75" width Second column 11 cm/4.33" width
36	Column headings in table not centred, bold and upper case and/or incorrect
37	Bottom border of row 2 and 3 not removed and outside border of table not triple and/or incorrect
38	Any bullets not inserted and indented in table and/or incorrect
39	First row in table not shaded grey and/or incorrect
40	Left tab stops not set on 5.5 cm/2.16" and 11 cm/4.33" and/or incorrect
41	Text not inserted at tab stops in Berlin Sans FB 12 pt and/or incorrect
42	[GREAT ... SHARKS!] not upper case and bold and/or incorrect
43	Text not inserted and centred and/or incorrect
44	Correct symbols not inserted and/or incorrect
45	Any other letter spaces, upper case and lower case incorrect
46	Line spacing as indicated throughout document incorrect
47	Any other manipulation error not indicated above

QUESTION 6

EXAMINATION NUMBER

- 2 All margins 1.27 cm/0.5"

- 3 Justified
4 3 Open lines

- 5 Heading top and any WordArt
6 Font Berlin Sans FB 28 pt centred

- 7 Great White replaced 9 times
8 Berlin Sans FB 14 pt, bold, ital

- 9 Encircled text changed to ital 4 times

Great White sharks, *Carcharodon carcharias* (Linnaeus, 1758), aka white sharks, white pointers, blue pointers, man-eaters, manila sharks, have, according to E. O. Wilson "...rightfully been called a top carnivore, a killing machine, the last free predator of man—the most frightening animal on earth." This common perception of white sharks is changing though as we learn more about these increasingly threatened sharks, some courageous explorers have not only free-dived with these "killing-machines," they lived to talk about it.

Great White sharks, *Carcharodon carcharias*, are the largest known predatory fish in the sea. They reach lengths of over 6.4 m and can weigh up to 2,268 kg. They have a conical snout, pitch black eyes, a heavy, torpedo-shaped body, and a crescent-shaped, nearly equal-lobed tail fin that is supported on each side by a keel. The **Great White** swims in a stiff-bodied, tuna-like fashion, unlike the sinuous whole-bodied swimming stroke of most sharks.

- 11 Line numbering inserted at correct paragraphs and correctly suppressed
12 Starting with 5 and spacing from text 0.2 cm/0.1"

The **Great White** sharks' average length is around 3.6 m, but there have been reports of sharks as large as 7.62 m. The **Great White** belongs to the Family Lamnidae (the mackerel sharks), which includes mako and salmon sharks. Along the California coastline, a **Great White** adult is an important predator of marine mammals, particularly the calorie-rich elephant seals. Juveniles feed mostly on fish and add marine mammals to their diet when they reach about 450 kg.

- 13 Third paragraph indented 3 cm/1.18" both sides, Changed to 1.5 line spacing

EXAMINER, PLEASE CORRECT LANGUAGE

Paragraph 1 – [... E.O. Wilson " ... rightfully] – letter spaces
P 1 – row 3 – letter space before and after –
P 2 – row 1 – fish not italics
P 2 – row 2 – 6,4 m and 2 268 kg
P 3 – row 1 – 3,6 m
P 3 – row 2 – 7,62 m

White sharks are able to prey on such large creatures with their large upper teeth, which are triangular in shape and sharply serrated to cut large pieces of flesh from prey. The bottom teeth are narrower and used to hold prey. An unusual characteristic the white sharks (shared by other mackerel sharks and thresher sharks, Family Alopiidae) is the ability to maintain parts of their body (swimming muscles, stomach, and brain) at temperatures above that of the surrounding water, which classifies them as endothermic or warm-blooded, like mammals.

[Information obtained by marinebio.org]

- 14 Paragraph four centred and indented 5 cm/1.96" both sides

- 9 ital

- 15 page break inserted

- 16 single horizontal line in footer (all pages)
17 Text inserted 8 pt, right-aligned
18 Reflection effect applied

Protect our marine life!

EXAMINATION NUMBER

QUESTION 6

FACTS

These carnivores are the world's largest known predatory fish. It has 300 teeth, yet does not chew its food. Sharks rip their prey into mouth-sized pieces which are swallowed whole. The shark's heavy, torpedo-shaped body allows it to cruise efficiently for long periods of time, and then suddenly switch to high speed bursts in pursuit of prey—sometimes leaping out of the water.

WHY THEY MATTER

As large and powerful predators, **Great White** sharks play an important role at the top of the marine food chain. Despite its fame and reputation, little is actually known about these sharks' biology and behaviour.

EXAMINER: PLEASE CORRECT LANGUAGE WHERE INDICATED
 Column 1 – row 3 – do not chew their
 Column 1 – row 9 – letter space before and after –
 Column 1 – last sentence not inserted – [It feeds ...]
 Column 3 – row 4 – [as trophies].

THREATS

Great White sharks are decreasing in numbers and are rare due to years of being hunted by man for fins and teeth, and often as a trophy for sport fishing. The white shark is often caught as bycatch by commercial fisheries and can also become entangled in meshes that protect beaches.

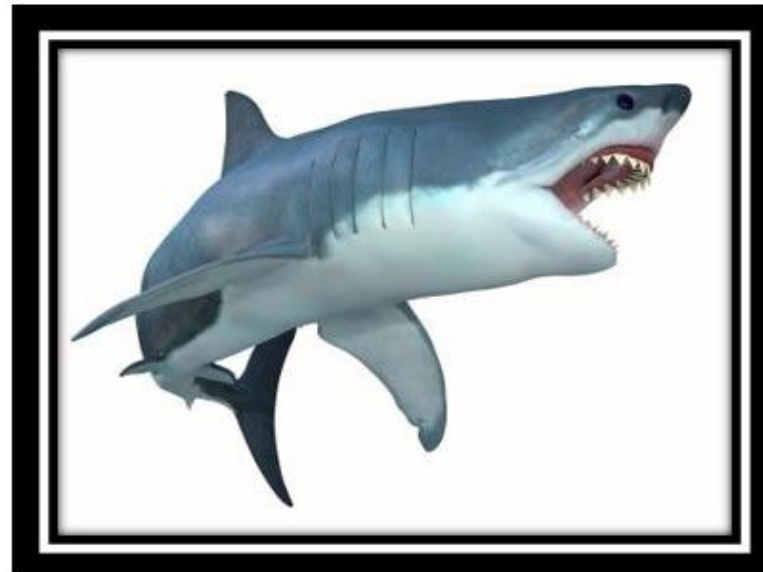

[Information obtained by worldwildlife.org]

9 ital

21 columns cancelled correct position

22 paragraph cut and pasted correct position

The name "white shark" is thought to have come from its universal all-white belly. The dorsal colouring of **Great White** sharks, however, ranges from pale to dark grey and can vary tremendously depending on lighting and water colour and visibility. (See image below)

23 correct image inserted after paragraph

24 size of image 7 cm/2.75" h x
9 cm/3.54" width

25 Double frame, black picture style applied

26 Only page 2 landscape, other pages portrait

15 page break inserted

Protect our marine life!

EXAMINATION NUMBER

†

Why should we protect sharks? 27 bold, underline

†

1. Sharks play a critical role in the ocean's ecosystems, they regulate the natural balance.
2. Sharks are being killed at an alarming rate of up to 273 million worldwide per year.
3. Sharks keep our oceans healthy and productive.

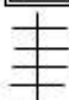

28 paragraph number and indent

- 29 correct shape, size 10 cm/3.93" height x 9 cm/3.54" width
 30 shape right-aligned, outline 3 pt
 31 correct text copied and pasted inside shape
 32 font in table and shape Berlin Sans FB 10 pt
 33 Heading: [Did you know?] bold, underline, centred
EXAMINER – the question mark at heading must not be underlined

- 34 Table inserted after shape
 35 Table: row height 0,5 cm/0.2"
 First column: 7 cm/2.75" width, Second column: 11 cm/4.33" width
 36 Column headings – uc, bold, centred
 37 Border in row 2 and 3 removed and outside border of table triple border
 38 Table – bullets and indent
 39 First row shaded grey

MYTH	FACT
• Sharks are hungry man eaters. • Sharks are all the same. • Sharks have no predators.	• Sharks do not hunt humans, most 'attacks' are mistakes. • Shark are diverse with over 400 different species. • The greatest predator to sharks are humans.

Protect marine life...

together we can save...

EXAMINER: Correct the following language.
 Column 2 – row 2 – Sharks are diverse ...
 Column 2 – row 3 – The greatest ... is humans.
 Protect marine life ...
 together we can save ... - must be a letter space before ...
